4. Claims 1 – 17, 19 – 26, and 28 – 32 are allowed.

Reasons For Allowance

5. The following is an examiner's statement of reasons for allowance: Applicant's claimed invention distinguishes over the prior art for following reasons. The independent claims 1, 9, are allowable over the art of record and none of references, either alone or in combination, discloses or renders obvious a method for generating a synchronization clock as claimed by selecting a first sampling clock and a second sampling clock so that one clock lies on each side of the midpoint of a calibration data unit, the calibration data unit having transition edges with the midpoint of the calibration data unit centered approximately between with the transition edges, and interpolating between the first and second sampling clocks to synthesize the synchronization clock, one edge of the synchronization clock located substantially at the midpoint of the calibration data unit.

The independent claims 17, and 26 are allowable over the art of record and none of references, either alone or in combination, discloses or renders obvious a clock synthesizer for generating an internal synchronization clock as claimed by detecting transition edges of a calibration data pattern with edge detector configured to sample calibration data pattern using at least two of sampling clocks and controller coupled to edge detector configured to select a first and second sampling clock and a interpolate

between the first and second sampling clocks to synthesize the internal synchronization clock.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
